

You've got to get tougher to stay at the top.

You already know Land-Rover's legendary ability to cope with any agricultural activity.

That you can add scores of attachments to a Land-Rover. From a tree-pruner to a snow-plough.

From a winch to a crop-sprayer.

Now we can show you a new and better model. The Series III.

Synchromesh on all 4 gears. A stronger reverse. Improved suspension. New brake drums.

In fact a tougher, stronger Land-Rover. We'd like you to see it.

Land-Rover Series III

DOWN MEMORY LANE

The earliest photograph of 1907 does give us proof that Scholes had teams playing in the Association, as the Scholes 1st XI won the Huddersfield & District Cricket Association Cup and of the 2nd XI. 1907, when the team won the Lumb Cup. Incidentally to-day, this Cup is one of the oldest cricket cups in Yorkshire, and still competed for in the Association League. Other photographs will be of interest to many of the older generation, and could also be treasured in years to come by the younger generation.

Scholes Cricket Club, First XI, 1907, winners of The Huddersfield District Cricket Association Cup.
